SEO For Your SMB: A Simple Guide for SMBs to Implement SEO Rick Spair

Whether your web site has been online for just a few weeks, or for years, you've probably already discovered an important fact, "search engines are an important key to prospects finding your business web site." They're the method of choice for finding information, products, or services, whether someone is brand new to the Internet, or is a sophisticated web researcher. This is why search engine optimization (SEO) is a critical part for any SMB's digital marketing strategy, and why firms that specialize in SEO charge thousands of dollars. Until now you may have thought that getting excellent search engine rankings is impossible for the little guy who doesn't have a large marketing budget, or isn't a technical guru, but this book provides the same methodologies, in an easy to understand format, that the big expensive SEO firms use every day to get their clients websites listed in the top 10 search results.
