Elementary Differential Equations and Boundary Value Problems 10e + WileyPLUS Registration Card William E. Boyce, Richard C. DiPrima

This package includes a copy of ISBN 9780470458310 and a registration code for the WileyPLUS course associated with the text. Before you purchase, check with your instructor or review your course syllabus to ensure that your instructor requires WileyPLUS.

For customer technical support, please visit <http://www.wileyplus.com/support>. WileyPLUS registration cards are only included with new products. Used and rental products may not include WileyPLUS registration cards.

The 10th edition of *Elementary Differential Equations and Boundary Value Problems*, like its predecessors, is written from the viewpoint of the applied mathematician, whose interest in differential equations may sometimes be quite theoretical, sometimes intensely practical, and often somewhere in between. The authors have sought to combine a sound and accurate exposition of the elementary theory of differential equations with considerable material on methods of solution, analysis, and approximation that have proved useful in a wide variety of applications. While the general structure of the book remains unchanged, some notable changes have been made to improve the clarity and readability of basic material about differential equations and their applications. In addition to expanded explanations, the 10th edition includes new problems, updated figures and examples to help motivate students. The book is written primarily for undergraduate students of mathematics, science, or engineering, who typically take a course on differential equations during their first or second year of study.

From reader reviews:

James Ellis:

Information is provisions for anyone to get better life, information today can get by anyone at everywhere. The information can be a knowledge or any news even an issue. What people must be consider whenever those information which is inside the former life are challenging be find than now's taking seriously which one is appropriate to believe or which one the resource are convinced. If you obtain the unstable resource then you have it as your main information we will see huge disadvantage for you. All of those possibilities will not happen in you if you take Elementary Differential Equations and Boundary Value Problems 10e + WileyPLUS Registration Card as the daily resource information.

Ellen Garcia:

A lot of people always spent their free time to vacation or go to the outside with them family or their friend. Do you know? Many a lot of people spent that they free time just watching TV, as well as playing video games all day long. If you would like try to find a new activity honestly, that is look different you can read a book. It is really fun for yourself. If you enjoy the book that you just read you can spent the entire day to reading a guide. The book Elementary Differential Equations and Boundary Value Problems 10e + WileyPLUS Registration Card it is extremely good to read. There are a lot of individuals who recommended this book. They were enjoying reading this book. When you did not have enough space to deliver this book you can buy the actual e-book. You can m0ore quickly to read this book from a smart phone. The price is not to fund but this book possesses high quality.

Alma Lewis:

As we know that book is vital thing to add our knowledge for everything. By a guide we can know everything you want. A book is a pair of written, printed, illustrated or perhaps blank sheet. Every year was exactly added. This reserve Elementary Differential Equations and Boundary Value Problems 10e + WileyPLUS Registration Card was filled concerning science. Spend your free time to add your knowledge about your research competence. Some people has various feel when they reading the book. If you know how big selling point of a book, you can truly feel enjoy to read a guide. In the modern era like right now, many ways to get book you wanted.

Ann Ginsberg:

A lot of guide has printed but it differs from the others. You can get it by net on social media. You can choose the best book for you, science, comic, novel, or whatever through searching from it. It is called of book Elementary Differential Equations and Boundary Value Problems 10e + WileyPLUS Registration Card. Contain your knowledge by it. Without leaving the printed book, it might add your knowledge and make an individual happier to read. It is most important that, you must aware about book. It can bring you from one place to other place.
