The Budapest Experiment: An International Thriller Novel Maurice G. Miller

At what price does one sell their soul?... Set in 1991, during the dawn of Post-Communist Hungary, this international thriller novel chronicles the exploits of Michael, an adventurous but struggling American entrepreneur. Navigating his way through the streets of Budapest, he begins to make business connections. Behind the scenes he detects an air of mysticism, danger, and lurking evil.

This book is an intriguing story of seduction, guilt, money, power, and betrayal, as a series of business dealings and events leads Michael to a business consulting position within the Russian Mob. During this period of tumultuous political, economic, and social change, the “Organization” is looking to establish a stronghold in Eastern European economies. Miller cleverly intertwines business, politics, steamy sex scenes, religion, and family life, all into this debut novel.

Entangled in the web of Mob culture, an examination of conscience reveals a spirit ravaged with feelings of guilt and betrayal, a rapidly growing bank account serving as the means to justify Michael’s actions. Pondering his future, he wonders if he can balance this extreme Budapest lifestyle with his “ordinary” family life back home. After padding his wallet for the past several months, would the Organization let him just walk away?
