## **Entangled Empathy: An Alternative Ethic for Our Relationships with Animals** Lori Gruen

Gruen describes entangled empathy as a type of caring perception focused on attending to another's experience of well-being. It is an experiential process involving a blend of emotion and cognition in which we recognize we are in relationships with others and are called upon to be responsive and responsible in these relationships by attending to another. When we engage in entangled empathy we are transformed and in that transformation we can imagine less violent, more meaningful ways of being together.
