Make Music Now! is an easy-to-read, non-technical, fun introduction to putting together and using a home studio. In addition to describing important concepts and gear-related topics, this book offers how-to tips and tricks, cost-effective technological guidance, and creative inspiration for using computers to make and distribute original music. The first section is an overview of gear: what the various pieces are, why they are necessary, how each one works, and tips on what to look for when shopping. The second section suggests fun ideas for home studio projects, and describes the basics of distributing music online, burning CDs, and more. Mitch Gallagher is editor-in-chief of EQ magazine and a former technical editor of Keyboard.
