There are a lot of workflow templates that are delivered with Dynamics AX 2012, but that doesn't mean that those are the only ones that you can use. Developing new workflow templates and actions are pretty straight forward and you can easily extend out the system to incorporate other workflow scenarios that have not been added yet. In this blueprint we will work through one example and show you how you can develop your own workflow process for product approvals that allow you to submit, track and approve the product review process.
