Our privacy is becoming less and less important to us: reality TV, webcams, Augmented Reality, even the government is less and less inclined to stay out of our private lives. We don't have anything to hide, do we? Who cares; just don't give us a headache!

Back to the TV with a can of beer. Our remote control makes us feel like gods. Stop moaning. Get up early in the morning, stuck in traffic, work, stuck in traffic again; TV, beer and back to sleep, day in, day out. And do not forget the supermarket on Saturday.

Like dodos, we entrust all our private information to the system and totally depend on it for our monetary and other needs. We simply can't be bothered to use our brains and maintain our skills.

Nevertheless, many people do admit that our society isn't doing too well. People feel ill at ease, restless and unsafe. Many ask themselves: "Where is this world going? Where does this road lead us to? What else awaits us? How did we get into this chaos?"

Of course there are a lot of self-centered and heartless people, but they are not the main offenders. The origins of our problems are deeper and clearly lie somewhere else.

We are raised, by tradition, to trust our governments, and are convinced that they care about us. This, however, is a big mistake. Below the surface of official politics lies a complicated social and intellectual process that is taking place. The visible world leaders are mere puppets directed by an invisible power from behind the scenes.

We are dealing with the rise of a new geo-political supranational power on the world scene. This geo-political power consists of the richest families on this planet. Together with the most powerful multinationals they rule and control all countries and all coalitions. The true aim of this elite group is complete control of Planet Earth.

The tentacles of our elite are woven with all facets of human existence. Their influence reaches all the leading institutions and organizations in the fields of politics, education, religion, finances and mass media. The true aim of this elite group is complete control of Planet Earth.

A complete integration of man and technology is in the works. The moment when these developments become irreversible is called the 'Transition'. It will mean the end of the individual right to self-determination. We are no longer deemed fit to make our own choices and take responsibility. We have come close to the point where we have started to believe this ourselves and accept this 'Transition'.

The time has come that we need to forget about the couch, the beer and the TV? If we do nothing, we will

end up in a modern version of the dark ages. We need to start using our brains quickly, or it will be too late.

The political and socio-economic chaos that exists at the moment was described 200 years ago in the Protocols of the Learned Elders of Zion. How is this possible?

The Protocols describe the plan to substitute the existing governments with a New World Order, one that will rule the entire world by reign of terror. International monopolists', operating under the guise of global politics, have been trying for decades to destroy the existing 'World Order' in order to create a dictatorial 'New World Order'; a global design for a One-World-Government, One-World-Dictator and its constituents.
