And the Mountains Echoed is a book about war and its long-term, widely-felt effects. It shows how circumstances can affect the lives of people who are unaware of how their lives and futures will be shaped by events that take place far away from them.

Abdullah and Pari live in a small village in Afghanistan and when food gets scarce, Pari is sold off to a wealthy woman.

This leads to a chain of events that affects people in far-flung areas such as Afghanistan, France, Greece, and America. *And the Mountains Echoed* is, at its core, a heart-wrenching story about families that are dealing with tough circumstances and having to make tough choices...
