Andromeda's Fall (Shadowcat Nation) Abigail Owen

Andromeda Reynolds is being hunted. After witnessing her mother's violent death at the hands of a pack of wolf shifters, Andie has devoted her life to protecting her community of cougar shifters from a similar fate. But now, a greater threat lies within her own pack, and she must run. If she stays, Kyle Carstairs will force their mating, seeking the added political power their union would provide.

Andie would rather chew off her own foot than end up with Kyle. Though, knowing him, she won't live long either way. Andie's only hope of survival is to mate Jaxon Keller, the Alpha of the Keller Dare with which she is seeking asylum. But before she can get to him, Andie must first go through A.J., one of the Alpha's Protectors. What Andie doesn't realize is that A.J. has secrets of his own. All Andie knows is that the incredibly frustrating shifter insists on challenging her story, her skills, her trust... and her heart.
