## **Dreaming Wide Awake: Lucid Dreaming, Shamanic Healing, and Psychedelics** David Jay Brown

A detailed guide to mastering lucid dreaming for physical and emotional healing, enhanced creativity, and spiritual awakening

- Offers methods to improve lucid dreaming abilities and techniques for developing superpowers in the dream realm
- Explains how to enhance dreaming with supplements, herbs, and psychedelics
- Explores the ability of lucid dreamers to communicate with the waking realm and the potential for shared lucid dreaming and access to our unconscious minds

In a lucid dream, you “awaken” within your dream and realize you are dreaming. With this extraordinary sense of awakening comes a clear perception of the continuity of self between waking and sleeping and the ability to significantly influence what happens within the dream, giving you the opportunity to genuinely experience anything without physical or social consequences. In this way, lucid dreaming offers therapeutic opportunities for fantasy fulfillment, fear confrontation, and releasing the trauma of past experiences. With development and practice, lucid dreaming can provide a powerful path to greater awareness, heightened creativity, spiritual awakening, and communication with the vast interconnected web of cosmic consciousness.

In this detailed guide to mastering the practice of lucid dreaming, David Jay Brown draws from his more than 20 years’ experience using these techniques and his interactions with dozens of experts on consciousness, physics, dreaming, and entheogens, such as Stanley Krippner, Rupert Sheldrake, Stephen LaBerge, Robert Waggoner, Dean Radin, Terence McKenna, and many others. He explores the intimate relationship between lucid dreaming, shamanic journeying, visionary plants, and psychedelic drugs and how they are used for healing and spiritual development. Offering methods for improving both lucid dreaming and shamanic journeying abilities, he explains how to enhance dreaming with oneirogens, supplements, herbs, and psychedelics and offers techniques for developing superpowers in the dream realm.

Summarizing the scientific research on lucid dreaming, Brown explores the ability of lucid dreamers to communicate with people in the waking realm and the potential for dream telepathy, shared lucid dreaming, and access to the vast unconscious regions of our minds, opening up a path that takes us beyond dreaming and waking to dreaming wide awake.
