Educating Hearts and Minds: 8 Best Practices for Transformative Teaching Hill Krishnan

Educating Hearts and Minds is both a practical and inspirational manual for bureaucracy-weary educators seeking new classroom techniques, as well as a reminder of the human importance of their calling. In this brief text, Dr. Hill Krishnan offers step-by-step methods for expanding one's personal charisma and effectiveness in teaching, while persistently reminding educators that a student-centered, holistic, caring approach actually facilitates learning and improves morale for both students and teachers.

Very few books on education remark as directly, and as persuasively, on the importance of empathy in reaching our students, and on the importance of a student-teacher mentoring relationship in the learning process. Educating Hearts and Minds will undoubtedly remind educators of their original, often forgotten passion for teaching, providing easy-to-implement techniques to re-start both their classroom and their sense of purpose. This book belongs on the shelves of anyone who teaches, whether in a middle school classroom or a graduate school lecture hall.
